

# Get Rich!

Play, Learn, Prosper — Official Game Instructions

## How to Play

### Step 1

#### Setup & Deal

Shuffle the deck and deal **4 cards to each player**. Place the rest face down as the draw deck. Play starts left of the dealer and proceeds clockwise.

### Step 2

#### Your Turn

On your turn, **draw 1–2 cards** and then discard any number of *combinations*.

- **Assets** of equal or higher value pay off **Debts** of equal or lower value.
- **Income** of equal or higher value pays off **Expenses** of equal or lower value.
- Ignore risk multipliers (**2X, 3X, 4X, 10X**) when paying off.
- Place discarded combinations face-up in two piles: one for **Assets/Income** and one for **Debts/Expenses**.

### Step 3

#### Hand Limit

At the end of your turn you may hold **no more than 8 cards**. If you cannot reach 8 or fewer by discarding combinations, discard **asset or income** cards first.

#### Step 4

#### Boom / Crash

When dealt or drawn, **play a “Boom” or “Crash” immediately** after drawing. Challenge an opponent to *Rock, Paper, Scissors*:

- **Boom:** loser gives their highest **asset** card to the winner.
- **Crash:** winner gives their highest **debt** card to the loser.
- In both cases, the **risk multiplier applies**.

#### Step 5

#### Responding to Discards

When a player discards a combination, the **first opponent to act on each discarded card** may respond:

- If the card is **Income or Asset**: take it by matching it with one of your own of the **same face value**.
- If the card is **Expense or Debt**: discard one of your own with the **same face value**.
- Ignore card rank and risk multipliers.

#### Step 6

#### End & Scoring

The game ends when the draw deck is gone and the last player finishes their turn. No combinations may be discarded after this point.

**Scoring:** Multiply each card's dollar value by its risk multiplier for the final total, or use face value if no multiplier is shown (e.g.,  $-\$20k \times 3 = -\$60k$ ). Add all cards to determine each player's **net worth**. The player with the highest net worth wins.
